

## **Ann's Attic**

Ann's Attic was initiated by retired first grade teacher, Ann Palmer. She started a fund to provide clothing and other essential items for our students. It was her wish that students be provided for as needed. A short time after her retirement she was killed in a car accident. This fund has been used over the past several years for the needs of our students.

The Health Office often receives donations of new and gently used clothing, shoes, hygiene items and much more to be passed on to students. Ann's Attic is expanding to include a "closet" with the donated items available to anyone! Children grow so fast so why not help each other out? Think of it as a garage sale where everything is free!

Check the Health Website to see what is currently available. If you have any questions or would like to donate new or gently used items please contact Mrs. Templin or Mrs. Kriner.
