

Otto-Eldred School District Notice from Health Office

Welcome back! Screenings have begun and will continue over the next month or so. All grade levels get heights, weights, and vision screenings. Please ensure your children are wearing their corrective

lenses because if one cannot see then it makes it difficult to read and learn! As in years past, there are programs available to assist those that do not have eye care coverage. Please contact the health office for information. Hearing screenings will be completed on grades K -3rd.

One thing in life that is certain is change! Entering our full second week of school we are faced with the wearing of face masks again. While it would be nice to think that this pandemic is behind us, the reality is that **it is not**. With that in mind, we must do everything we can to ensure the safety of our children. As per the CDC guidelines, OESD has instituted and continued the recommended mitigation guidelines including social distancing, keeping students in smaller common groups, etc. The face masks are just another component of our efforts to keep children safe. Based on last year, experience has demonstrated that children really do tolerate the wearing of masks during the school day. Please support OESD in doing everything we can to have a safe, successful schoolyear!

Sincerely,

Mrs. Templin, RN, CSN
