

MEDICATION POLICY:

Medication will not be administered in school unless absolutely necessary. If, however, it does become necessary for your child to receive medication during school hours the following procedures **MUST BE** followed:

A. Medication must be brought to the school by an adult in the pharmacy container labeled with the following information: name of child, name of physician, name of medication and the correct dosage and time of administration.

B. The parent must provide a written physician's order for the medication that states the child's name, medication dosage and time of administration.

The necessary forms for medication administration authorization are available from the school nurse and /or OE Website.
