

Tis the season for illnesses for our children! Just a reminder, do not send your child to school if:

- Fever >100 degrees. Child should be fever free for 24 hours without the use of fever reducer medication.
- Vomiting or diarrhea
- Eyes are red, swollen, draining, itchy, painful and/or "crusted" over in the morning.
- Sores around the mouth and nose that are moist and oozing clear to yellow fluid.
- If you have any questions about whether to send child, contact the health office.

Happy New Year!

New year, new choices! The Otto-Eldred School District is excited to explore new vending options for fresh fruit and vegetables to be used on our daily menu. Fresh strawberries and tomatoes in January are rare to find but our students are LOVING them! Please encourage your child(ren) to try new things and stay tuned for some tasting opportunities like grapefruit, plums and hopefully a few new veggies to try too!

Greetings and Happy 2024!

We welcome everyone back to school, kicking off 2024 with a bang! As we are close to the end of the marking period, a friendly reminder that all books need to be returned/renewed in order for report cards to be distributed. If there are any questions regarding books that are overdue or lost, please don't hesitate to contact me!
